

As of July 2021 the weekly reports are published on Tuesdays at 16h

Unfortunately, the data in the report is still not complete since data transmission from Italy is subject to certain technical issues.

Trade monitoring through customs surveillance data

The TAXUD surveillance system ("customs surveillance") records and centralizes all trade data (import and exports) directly from the national customs authorities on a daily basis. For each transaction, the stored data contain the information available on the Single Administrative Document (SAD), including the volume and origin of the consignment.

As surveillance system does not include intra-trade data, the UK data as EU partner can't be displayed before 1/1/2021. The data as of 1/1/2021 is therefore not comparable with the data until 31/12/2020.

According to Art.55(2) of Commission Implementing Regulation (EU) 2015/2447, the customs authorities shall provide the Commission at least once a week with data on customs declarations for the goods that have been made subject to surveillance at release for free circulation or at export.

The "customs surveillance" data provide actual and prompt information about the trade (import/export) transaction in terms of volume and origin or destination.

In case of a technical issue or another constraint causing delay of the publication, please note that the next upload will be done in the coming days at 12h or 16h.

* The United Kingdom is no longer a Member State of the European Union, however until the end of the transition period it was still a part of the EU Customs Union. Due to the absence of intra-trade data in the surveillance system, the totals of the EU trade data therefore also include the UK data until 31/12/2020. The data as of 1/1/2021 is therefore not comparable with the data until 31/12/2020.

* The United Kingdom is no longer a Member State of the European Union, however until the end of the transition period it was still a part of the EU Customs Union. Due to the absence of intra-trade data in the surveillance system, the totals of the EU trade data therefore also include the UK data until 31/12/2020. The data as of 1/1/2021 is therefore not comparable with the data until 31/12/2020.
